

Prewired Combination Mold Junction Box for Hot Runner Wiring

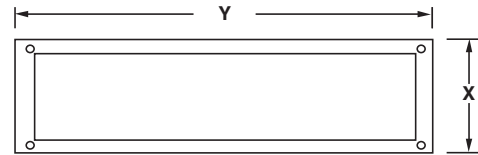

Athena Prewired Combination Mold Junction Boxes are available in three different models and offer a fast and simple method for mounting of power and thermocouple connectors to the mold. Each box contains a terminal strip for easy wiring of the power connector without having to crimp the wires.

Each Box

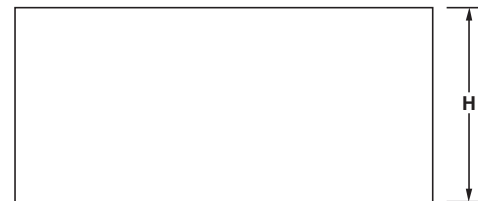

- ▲ Is Constructed of Plated Heavy Gauge Steel
- ▲ Has Drilled Holes for Quick Mounting of the Box to the Mold
- ▲ Features Pre-Numbered Terminal Strips to Correspond with the Power Connectors
- ▲ Comes with All Necessary Mounting Hardware
