

Invotec - All Purpose Vacuum Gun System

A low cost solutions to a wide variety of industrial housekeeping problems.

Can be used as a powerful vacuum gun, as an efficient blow gun or a transfer tool for light materials
(Conversion is simply a matter of reversing the direction of the nozzle insert)

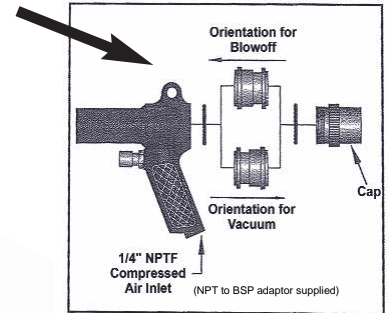

Great for:

- **VACUUMING** shavings, chips, absorbent, sawdust, spills
- **BLOWING** shavings, chips, scrap, coolant, water
- **TRANSFERRING** small parts, pellets, trim, dust

No moving parts
to wear out or break

HOW IT WORKS

Vac-u-Gun injects a small amount of compressed air through directed nozzles to produce a vacuum on one end and an output flow (12 times the air consumption rate) on the other.

In Blow Mode, the Vac-u-Gun consumes less compressed air than an ordinary blow gun — AND IT'S QUIET

1/4" NPT Air Inlet
(NPT to BSP adaptor supplied)
Meets or exceeds OSHA pressure requirements

INCLUDES: Air Gun, Re-usable Collection Bag, 10 foot Vacuum Hose, Brush, Crevice Tool, Skimmer Tool and two Extension Wands.

SPECIFICATIONS

- Pressure Supply required: 80 psi
- Air Consumption: 13 SCFM, 368 SLPM
- Air Inlet: 1/4" NPT (NPT to BSP adaptor supplied)
